- 2.2 All of the fees include free air and CO<sub>2</sub> support.

### **3. PLAYER ID CARDS AND CATEGORIES**

- 3.1 Players need to have a valid "Millennium Player ID Card" to participate in any Millennium tournament. Players have to wear their ID card all the time while being on the tournament ground.
- 3.2 Any player who cannot show his/her Millennium Player ID Card before or in the game to a judge requesting the card will be not allowed to play or will be eliminated from play.
- 3.3 Only players with valid Millennium Player ID Card will be allowed to enter the "players area".
- 3.4 The price of the ID is 20 € for Division III teams and 30 € for Division I, II and Pro teams. Renewal of the card after a transfer or to replace a lost card is 15 €.
- 3.5 NPPL Super 7 ID Cards are also valid for Millennium Series events.
- 3.6 The category of the player mentioned on the card is that of the team he registers with. This status stays within the following seasons until the player moves as mentioned in these rules.
- 3.7 In each season players can move as many times as they want inside their own category. Out of their category players can move up as many times as they want. If a player has moved down once, he cannot move out of category again during the current season. For the last leg of the season players are not allowed to move down<sup>1</sup>.
- 3.8 Pre-registration the ID cards is possible via the [www.millennium-series.com](http://www.millennium-series.com) website. A 5 € discount is rewarded when pre registering.
- 3.9 ID-cards are only valid for one season, the season date is on the card.

### **4. RANKING AND SEEDING**

- 4.1 Teams will be seeded from 1<sup>st</sup> to last according to their category (Pro, Division I, II & III) and place therein.

---

<sup>1</sup> To prevent teams from lending better players of other teams for use in the last tournament.

- 4.2 Teams will be seeded according to the current years Millennium Series ranking. For the first event of the series teams will be ranked according to the previous seasons results. In the case teams have no ranking points that season, these teams will be seeded in alphabetical order, not taking into account city, state, country or the words "the" and "team".
- 4.3 Any team that elects to change its status will not keep any points earned previously.
- 4.4 Marshalling teams will receive 200 points. These points will be issued, provided that such team fulfills its obligations as a judging team. This will be measured by the head judge.
- 4.5 Teams shall receive ranking points in the current season equal to the aggregate of the points earned at those tournaments in which such teams participated.
- 4.6 Seven player team-ranking points are earned as follows:  
 $R = (\text{position of the team} : \text{number of teams})$   
 $[(1-R) \times 200] + 5 = \text{points}$
- 4.7 Professional 7-Man teams will earn full series points at Maxs European Masters, 7-Man World Cup, Iberian Cup, Malaga Beach and all NPPL Super 7 Events. The Millennium Rankings will take the best 4 results from the series, at most, 2 of these results can be from NPPL Super 7 Series Events.  
Division I, II & III teams will earn full points at Maxs European Masters, DMA, 7-Man World Cup, Iberian Cup, Campaign Cup and all NPPL Super 7 Series Events. Points to the value of 80% will be awarded at the Millennium Series Partner Events, Camp Masters, Nordic Challenge and Malaga Beach. The best 5 scores will count towards the Millennium Series Rankings, at most, 2 of these results can be from NPPL Super 7 World Series Events.

## **5. NUMBER OF GAMES**

- 5.1 Teams will play ten preliminary round games. Such games will be played against teams according to the defined qualification system.  
Pro Teams will play other Pros, Division I & Division II teams.  
Division I teams will play Pros, Division I and Division III teams.  
Division II teams will play Pros, Division II and Division III teams.  
Division III teams will play Division I, Division II and Division III teams.
- 5.2 Teams will qualify for the quarter final round in the following manner:  
If there are less than 8 teams in the classification there will be no quarter final round and the top four teams will qualify directly for the semifinal round.  
If there are 8 to 20 teams in the classification, the top 8 teams therein will qualify and play in the quarter final round.  
If there are 21 to 30 teams in the classification, the top 12 teams therein will qualify and play in the quarter final round.  
If there are over 30 teams in the classification, the top 16 teams therein will qualify and play in the quarter final round.  
The top two teams in each division of a two division quarter final round will qualify and play in the semi final round.  
The top one team in each division of a three divisions quarter final round and the highest scoring team of the teams who took second place in their division will qualify and play in the semi final round.  
The top one team in each division of a four division quarter final round will qualify and play in the semi final round.
- 5.3 Team positions at the end of a round of play are determined by total points earned by the teams in such round, subject to the tie breaking position contained in this section.

- 5.4 In case of a tie score among teams such tie will be broken first by head to head competition during the whole tournament.<sup>2</sup> The winner of such contest advancing. If the tie among teams remains after such tie breaking determination, the tie shall be broken by the previous round scores; the team with the greatest score in the previous round advancing. If the tie among teams remains after such tie breaking determination, the tie shall be broken by the next previous round scores. If the tie still remains the tie will be broken by the seeding that the teams had entering the tournament, the highest seeded team advancing.
- 5.5 After the semi finals Division II and Division III teams play all the three other finalists.
- 5.6 After the quarterfinals (for Professional and Division I teams) the top seed plays 4<sup>th</sup> place in a semifinal whilst 2<sup>nd</sup> plays 3<sup>rd</sup> in a semifinal, both in best of three games. Then in the finals the winner of 1v4 plays the winner of 2v3 for 1<sup>st</sup> & 2<sup>nd</sup> place, whilst the losing teams compete for 3<sup>rd</sup> & 4<sup>th</sup> place in a best of three.<sup>3</sup>
- 5.7 Two teams under same ownership, management or club structure, cannot play each other at an event, until the semifinals (the final 4). If the normal seeding has such two teams playing each other, the lower ranked team of the two will be moved down one or two places (whichever is applicable) in the seeding, to ensure they do not play each other. If the lower ranked team is at the bottom of its division and can thus not be moved down sufficiently, the higher ranked team will be moved down in the seedings by one or two places (whichever applicable). If neither team can be moved down sufficiently in its division, the lower ranked team will be moved up by one or two places (whichever applicable). The ranking will be based on the Millennium Series ranking for the preliminary round and the previous round scores for any subsequent rounds. This rule governs preliminary games, and quarter finals so that such teams cannot play each other until the semi-finals (the final 4).

## **6. INFORMATION**

- 6.1 The promoter will supply tournament information, including information concerning an itinerary and schedule of events including time and place for the rules meeting and the captains' meeting, hotel information, a waiver and roster form and the Millennium rules, to any team having entered the competition in need of the same.
- 6.2 A rules meeting will be held on the evening before the first day of each tournament. The purpose of this meeting is for the judging staff to answer questions concerning these rules.

- 6.7 A field is defined as being a flat, level area, surfaced to minimise players injury and completely surrounded by netting to ensure safety, and a size of approximately 55\*30.5

---

<sup>2</sup> First winning games will be counted, than if there is still a tie, the points will be counted.

<sup>3</sup> First the games will be counted. The team with two wins will be the overall winner. A drawn game is counted as a win based on points. If there is a draw after playing three games (for example: 100:0 – 0:100 – 15:15), the winning team is the one with the more points in these 3 games.

- meters. A field is to hold at least 2,5 obstacles (bunkers) per player on one team. The field boundary shall be marked clearly visible to the players.
- 6.8 A flag station is placed on the back line of the field, and is defined as being a pole or screen holding the teams flag and a floor board (or similar) with sufficient room for every player on a team to place his foot on at game start.
- 6.9 The tournament promoter will provide to the secretary of the Millennium within two weeks after completion of the event copies of all game sheets and scoring summaries, a complete listing of attending teams, their final standings and any prizes or awards received thereby and a complete list of all event sponsors, which will be posted on the Millennium Series website.

- 8.7 Judges will not, through action or inaction, deliberately reveal or conceal the locations or actions of players during the course of a game. Judges will not impede the progress of the game
- 8.8 All judges shall perform their obligations and shall make decisions in a totally unbiased manner. If any judge is found to have been bias in his judging activities for or against any team, such person shall be dropped by the Ultimate Judge from the judging team for the remainder of the tournament. Marshal points may be reduced.

---

<sup>4</sup> They don't have to speak business English, but they have to speak enough English to make the players understand what they would like them to do. Three of them (the base judges and the head judge) must be able explain paintball related issues in a nearly perfect manner to them. Otherwise marshalpoints can be reduced by 50 points.

- 8.9 Any team that fails or refuses to discharge its marshall duties as specified in this section shall be penalized. The Disciplinary Committee is the MS organization which imposes these sanctions. It has the power to reduce the marshalling series points down to zero.
- 8.10 In the event of an emergency situation, the judge discovering the emergency will request that all judges stay off the radios. Other judges on the field will immediately cause all action to stop. Game time will also be halted for the duration of the emergency.

## **EQUIPMENT**

### **9. CLOTHING**

- 9.1 Each player may only wear two layers of clothing. Three layers will be allowed if the temperature is less than 10°C. This clothing shall consist of one pair of undershorts and one short or long sleeve T-shirt<sup>5</sup>, one pair of full-length pants and one long-sleeved shirt, as long as the colors on the outer garments doesn't look like the official marshal apparel (black and white vertical stripes) and the thickness of these layers together doesn't seem to have their aim in unreasonable excessive padding<sup>6</sup>.
- 9.2 Clothing with sewn in padding count as two layers clothing in the area which is padded. The padding restrictions of section 9.1 stay valid.<sup>7</sup>
- 9.3 Players may not wear extremely oversized clothing. If a judge deems that a player's clothing is oversized, the judge may require new attire or temporary adjustments using tape, pins, etc.
- 9.4 Players may not wear jackets and or pants, which are made out of highly absorbent material, such as felt or fleece, or of a highly padded or slick nature, such as nylon or rubber.
- 9.5 Players may wear a single pair of gloves, with or without full fingers. Gloves may be padded.
- 9.6 Players may wear neoprene neck protection of a single layer.
- 9.7 Players are not allowed to wear shoes with metal spikes or metal cleats.
- 9.8 If a player is found to be wearing illegal clothing then he will be allowed to change clothing if time permitting<sup>8</sup> otherwise he isn't allowed to enter the game.

### **10. PROTECTIVE GEAR**

- 10.1 If there is a paintball marker capable of firing on the field without a barrel sock on it, players and judges must wear goggles all the time in the chrono station as well as on the field. Players offending against this rule will be excluded from the tournament.<sup>9</sup>
- 10.2 Goggles have to be in good repair and with lenses that are not damaged, in particular cracked<sup>10</sup>. These goggles must meet or exceed ASTM Standards.<sup>11</sup>

---

<sup>5</sup> By T-Shirts or long sleeved shirts are meant shirts which are as thick as standard t-shirts. Sweat shirts (hooded or not) are therefore not allowed..

<sup>6</sup> Excessive padding means, that the possibility that a paintball breaks on this kind of outfit is at least 20% less, than if the player would wear two normal shirts (weight of the garment ca 120g/squaremeter).

<sup>7</sup> Shirts like the Dye ones are therefore "legal" unless it is proven, that the bouncing effect outrages against the excessive padding restriction. So it is allowed to wear a Dye jersey with a t-shirt which does not cover elbows nor shoulders. The player may wear a pair or elbow protection (Dye,JT or other brands).

<sup>8</sup> Eg. by removing the illegal layer.

<sup>9</sup> While fieldreading players aren't allowed to carry their markers with attached air with them.

<sup>10</sup> Cracks, no matter how long, will make the goggle illegal and the player has to leave the area immediately where he is on duty to wear a goggle.

- 10.3 Players and judges must wear full-face protection as it comes from the manufacturer original form.
- 10.4 Players and judges must wear ear protection that is part of the goggle system that was made by the manufacturer for that goggle system.
- 10.5 Players may wear one pair of forearm and elbow protection, provided that the padding on such protection has not been modified from the manufacturer's original form. Such protection may be worn over or under clothing.
- 10.6 Players may wear shin and knee protection, provided that the padding has not been modified from the manufacturer's original form. Such protection may be worn over or under clothing.
- 10.7 Male players may wear groin protection and female players may wear breast protection.

## **11. MARKERS**

- 11.1 Players may use a single, .68 caliber, pump or semi automatic paintball marker, which consists of a single barrel and a single trigger, which is protected by a trigger guard. Double action triggers are prohibited<sup>12</sup>.
- 11.2 Markers with any kind of adjuster which may lead to standards, which are forbidden in these rules, must be modified in such a way that the adjuster is not readily accessible during the course of the game without using a tool.
- 11.3 The definition of a trigger is the movable lever that comes in contact with the finger. A trigger pull requires an exertion of force by the finger on the trigger and a release of force by the finger on the trigger during every firing cycle. Markers may fire at any rate of fire, and may shoot any number of paintballs, provided that no more than one burst of gas is delivered down the barrel as each pull of the trigger occurs.<sup>13</sup>
- 11.4 Any marker which can be made to fire without applying a force external to the marker directly to the trigger is illegal.
- 11.5 Marker barrels may be equipped with porting, slots, rifling, but may not have a sound suppressor attached or integral to the construction of the barrel. Only one barrel per player and marker will be allowed on the field.
- 11.6 A paintball marker capable of firing in a mode, which is illegal shall be rendered incapable of firing in such mode in such a manner that a player may not readily change the marker back to this mode during a game without using tools (mechanical or electrical).
- 11.7 Cloth and neoprene air or CO<sub>2</sub> tank covers will be allowed<sup>14</sup>.
- 11.8 Removing the barrel sock from the barrel of a marker which is attached to a gas/air device is allowed while chronoing and on the playing field after the marshal who starts

---

<sup>11</sup> Goggle manufacturers must submit independent laboratory test results to the Millennium at least 10 days prior to the start of a tournament demonstrating that the goggle system meets or exceeds ASTM standards for any system such manufacturer wishes to be allowed for use during that tournament.

<sup>12</sup> Due to safety reasons, because the first shot may break the condom, the second might go through.

<sup>13</sup> In short: one pull – one shot

Judges testing method:

First, the judge will fully depress and hold the trigger. While keeping the trigger fully depressed, the judge will attempt to move the trigger side to side. The judge will then release the trigger. No more than one paintball may have been fired. Second, the judge will as quickly as possible fully depress and then release the trigger. No more than one paintball may have been fired. Third, the judge will apply sideway pressure to the trigger and then attempt to fully depress the trigger. No more than one paintball may have been fired. Fourth, the judge will slowly, over a period not to exceed two seconds, fully depress the trigger in one continuous motion and then, over a period not to exceed two seconds, slowly release the trigger in one continuous motion. No more than one paintball may have been fired in any of the four instances. Fifth, the judge will fire the marker at a rate of fire of approximately 6 shots per second, to test for Turbo mode. The marker may not appear to fire more than one shot per trigger pull. If any of the five tests are failed, a player may request that the complete set of five tests is repeated an additional two times. The marker will be deemed legal if it passes every subsequent test and be otherwise deemed illegal. These tests will be performed with the marker held in a manner and position consistent with playing on the field. The testing must be confirmed by the ultimate judge of the tournament.

<sup>14</sup> Players may not use cloth, neoprene, or other material to cover their hoppers.

- the game allowed the players to do so while the game is not over yet. Playes offending will be excluded or eliminated from the ongoing game.
- 11.9 Triggers must be protected by trigger guards.
  - 11.10 Any illegal marker is not allowed on the field. Players fielding with illegal markers will be eliminated from play.
  - 11.11 Any player whose marker outrages the one-pull-one-shot rule will be excluded from the tournament, unless the marker is proven to have incurred a mechanical, pneumatical or electronical deficiency during the game in question, and the player as such is without ill intent. The team of the player will lose the game during which this illegal marker was being used 0:100.

## **12. OTHER EQUIPMENT**

- 12.1 Players may carry a single hand towel, provided that it is not of the same color as armbands, flags, or judges apparel and cannot be used for padding reasons.
- 12.2 Players may not carry extra constant air or co2 tanks.
- 12.3 Stickers on all equipment fixed to the marker<sup>15</sup>, as the marker itself are allowed in any color - such stickers cannot overlap each other or in any way appear to be meant to prevent or disguise hits.

## **13. PROHIBITED EQUIPMENT "tools"**

- 13.1 Prohibited equipment on the field includes any mechanical or electrical tools as well as listening devices, communication devices and any form of electronic surveillance device, incendiary devices, smoke producing devices, red paint, paint which is toxic or not biodegradable or indelible and paint which has a shell, fill or both altered or augmented in any way.
- 13.2 Teams found using forbidden paint or carrying forbidden paint in their pods or hoppers will have to pay a fine of € 500.-.

# **THE GAME**

## **14. PLAYER STATUS**

- 14.1 An "active" player is every player on the field which is in the game, but not "inactive" nor "neutral".
- 14.2 A "neutral" player is a player on the field which is in the game, but declared as "neutral" by a judge.
- 14.3 An "inactive" player is every player, which is eliminated by a valid hit, by surrendering<sup>16</sup> or by disqualification due to a penalty.

## **15. POSSESSION AND EXCHANGE**

- 15.1 Two active players may exchange equipment.
- 15.2 Players who are "inactive"<sup>17</sup> must exit the field with all equipment they were carrying when they got inactive.

---

<sup>15</sup> Loaders, hoppers, feed devices, air systems..

<sup>16</sup> this is possible by declaring oneself as "out", "hit" or "eliminated"

- 15.3 Players must carry all equipment to be used during the course of the game on their person at the start of the game.

## **16. GETTING STARTED**

- 16.1 Each team is expected to report to the fields chrono station for pre game chronographing (section 17) at least 10 minutes prior to the scheduled start of their next game.
- 16.2 Players who have passed the chronograph will be stationed in a controlled area.<sup>18</sup> Players who have passed the chronograph may not leave this area, except to enter the field with acceptance of a judge. Players in this area may not have any tools.
- 16.3 Players are responsible for removing old hits or bringing the same to the attention of a field judge so that this may be dealt with in a manner that would not result in an elimination of the player.
- 16.4 Players are not allowed to have tools or other prohibited equipment onto the game field after being pre game cronographed.<sup>19</sup>
- 16.5 Each player will be given an armband in a distinctive color and will wear it on his left arm.
- 16.6 Players start the game in front of their flag station and must have one foot in/on it at the start of the game. Any player without one foot in/on the flag station at the start of the game will be eliminated. Players have to start the game with their markers facing in the opposite direction of the opponents flagstation and failure to do so will result in elimination. Players start the game in-bounds, and can as such commence play immidiately upon game start without having to move.
- 16.7 When the teams are assembled at their respective flag stations, a judge will start the game following the procedure described in section 18.
- 16.8 Games will be scheduled so that there is a minimum of 40 minutes between start of any team's games. No forfeits will be given during this period.
- 16.9 Gametime will be 7 minutes.

## **17. PRE GAME CHRONOGRAPHING**

- 17.1 All games will be preceded by a pregame chronographing session, pursuant to which each player on each team will be chronographed. Only Radar chronographies will be used for an official game chronograph. Multiple chronographs may be designated for each playing field so that in the event that a chronograph is not working, one which was available to the teams can be substituted.
- 17.2 The chrono judge will take a marker from a player and inspect it for the following:
- the presence of foreign matter in the barrel, feed port or loader;
  - tightness of screws, barrel, tank and other parts which can increase or decrease velocity or which may make the marker to an illegal marker according to these rules;
  - presence of valves or expansion chambers which can be turned on or off; all valves will be placed in the fully open or closed position whichever may not be legal;
  - presence of external adjusters which are not covered or fixed in place, which would enable a player to increase the muzzle velocity of the marker on the game field without resorting to the use of tools or which adjustment may lead to an illegal marker according to these rules.

---

<sup>17</sup> eliminated

<sup>18</sup> This area will be supervised by a judge or other tournament official.

<sup>19</sup> Presence of such equipment may result in a penalty and disciplinary proceedings against the offending player and/or team.

- 17.3 Players whose markers pass such<sup>20</sup> inspection will step to the chronograph, and the chronograph judge shall chronograph the marker as it would or could be fired effectively on the game field at its maximum velocity. The chrono judge will fire three shots over the chronograph.
- 17.4 Markers will pass inspection if all three shots are equal to or less than 300 feet per second.
- 17.5 Players whose markers do not pass the pregame chronographing will be informed and will be given an opportunity to remedy the situation, if time permitting.
- 17.6 All players whose markers have not passed the chronograph and cannot remedy on time will be counted as eliminated and therefore inactive.

## **18. STARTING THE GAME**

- 18.1 Flag stations for all rounds will be determined by coin toss prior to the start of the game. During the best of three series only the first game will be tossed, thereafter the sides will be switched for every new game.
- 18.2 The head judge has to ascertain that both teams are ready. Then the judge allows the teams to remove their barrel socks. Afterwards the start of the game is being announced by a 10-second warning - so that each team may hear clearly such warning – by one judge in the middle of the field. The procedure is therefore the following: "Barrel socks off! Get ready for the 10 second warning - 3, 2, 1, - TEN SECONDS" Thereafter, the game will start by this judge shouting so that each team may hear, by radio or otherwise, either, "Game on." or "Go, go, go." The judge will also give a visual game start signal so that each team can easily see such signal<sup>21</sup>

## **19. IN GAME CHRONOGRAPHING**

- 19.1 Chronographing on the field may be done at any time at the discretion of any field judge to determine if a marker's muzzle velocity has risen above legal limits.<sup>22</sup> Judges will seek to perform on the field chronographing in a manner which least interferes with play. The judge may check one, two or three shots in a row at his discretion.
- 19.2 If all chronoed shots were equal to 300 feet per second or less, the player will continue to play without penalty.
- 19.3 If one or more of the chronoed shots is equal to 301 feet per second or above, the player will be eliminated from play.
- 19.4 If one or more of the chronoed shots is equal to 311 feet per second or above, the player will be eliminated from play and a 1-for-1 penalty will be applied.
- 19.5 If the result ends up in a punishment the judge has to show the velocity to the player immediately.
- 19.6 If the head judge decides to chrono an amount of players right before the start of the game he will announce "markers down" to the players. All players must lay down their markers without operating a switch or shooting. Players operating switches or shooting will be eliminated from play. The following chrono-procedure will be done with the "red" radar field chrono on which the players checked in with **exactly two** clearing shots and a single (the 3<sup>rd</sup>!) shot which is the official result of the velocity check.

---

<sup>20</sup> see section 17.2

<sup>21</sup> raising then lowering his arm or a special flag.

<sup>22</sup> The hand held chrono must be placed at the end of the barrel in an angle of 90 degrees to the barrel. To get a clear reading the hand held has to be held with the fingertips right at its base. Do not grip the body with your whole hand as this interferes with the reading.

## **20. GAME STOPPAGES**

- 20.1 Game stoppages will only occur in case of an emergency, dangerous weather conditions, other "acts of God" or a physical altercation on the game field.
- 20.2 Game stoppages will be indicated by the judges calling "freeze". Every player has to stay in the position he is in while the first call.<sup>23</sup>

## **21. GAME TIMES & COMPLETION**

- 21.1 A game will end at the earliest of
  - a successful flag hang,
  - the elimination of all players on the game field, or
  - 7 minutes after the start of the game.
- 21.2 When the game time has expired or a flag judge declares a flag hanger clean and the hang completed, the judge will communicate to all judges the "Game over" call.
- 21.3 Official game time will be kept by a judge appointed thereby. In the event that a game is to be interrupted, because of an emergency or otherwise, he will mark the time. The Head Judge will restart the game by 10 seconds warning followed by the "game on" signal as specified before. Time will begin to run upon such restart. Before the first warning, the Head Judge will inform the teams of the remaining game time.

## **22. CHECKOUT PROCEDURES**

- 22.1 Players that are eliminated immediately must:
  - exit the field by the most direct route or as directed by a field judge. Players that take routes that are not the most direct and are meant to conceal from the other team such player's elimination or players that refuse to follow a judge's direction on leaving the field constitute "playing on".
  - leave their marker in the area designed for that purpose. All power sources must remain attached to the marker. No button or switch may be operated. Failure to follow that rule will result in a 1-for-1 penalty being applied.
  - go to and stay in the "dead box" assigned to their team. Until the end of the game. Any player offending against this rule will be excluded from playing the next game.
- 22.2 All active or neutral players at the end of a game must present themselves to the nearest field judge for inspection. At this time a field judge will inspect the player for hits and if any are found, the Head Judge will be notified and proper penalties will be assessed.

## **23. FORFEITS**

- 23.1 A forfeit will be declared for each game that a team fails to report in a timely fashion for its pregame chronographing, or for any game in which a team refuses to take the field, as long as its opponent is willing to and/or does take the field.<sup>24</sup>

---

<sup>23</sup> All field judges will note the locations of the players at the time that the game is stopped. Once the game has been stopped, the field judges will insure that players remain in those locations. Judges will check all players and will remove any players who are eliminated prior to the game being stopped. Judges will confer to review the sequence of events prior to the game stoppage. If penalties need be assessed, they will be so assessed at such time. Players with hits may be reinstated into the game if the field judges determine, in their discretion, that a player was eliminated as a direct result of illegal actions which led directly to the game stoppage. Once the condition causing the game stoppage has abated or been resolved all the live players and flags are placed in proper positions by the field judges, the Head Judge will restart the game in accordance with the procedures before.

- 23.2 Any team which is scheduled to oppose a team that has forfeited a game will receive the higher of the following numbers of points:
- 95 points
  - the average of all their games in that round
- The forfeited team(s) will receive zero points for that game.
- Once a forfeit has been declared, the forfeited game will not be rescheduled and the score will stand, except if the reason for having missed the game was a fault from the organization staff and the relevant round is not over yet.

## **24. PAINTCHECKS**

- 24.1 Paintchecks are performed by judges for the purpose of determining if a paintball has broken on and marked a player.
- 24.2 Paintchecks are performed by a judge when the judge has observed a player taking fire, when fire is directed into an area occupied by a player that the judge cannot directly observe, when the physical location that a paintball may have broken on is not visible to the judge, or when the judge is directed to do so by another judge.
- 24.3 Judges are not obliged to do a paintcheck after a player has requested one on an opponent.
- 24.4 Judges will make every effort to perform a paintcheck without calling a player "neutral". No flag carrier will ever be stopped and declared neutral for the purposes of performing a paintcheck.
- 24.5 A judge calling a player "neutral" will indicate the same to all players on the field by standing over the player, shouting, "neutral." and holding his arms above his head or waiving them.
- 24.6 A player declared "neutral" cannot be eliminated from the game or moved on, either by opposing team members or his own teammates, while in the state of neutrality.

## **25. OBVIOUS HITS**

- 25.1 Obvious hits are those which impact and break on for the player easily observable places on his/her body or equipment being carried or those that have been felt by the player. A judge will determine whether a player felt a hit by where that paintball impacted his body and whether he reacted upon being hit.
- 25.2 Players who are hit in an obvious location are expected to immediately signal their elimination by raising their hand above shoulder level.
- 25.3 Such players must then remove their armbands, put the barrel sock on the barrel and hold the marker in the air above the head and exit the field immediately by the most direct route or upon the instructions of a field judge, if given.
- 25.4 Players who are hit in obvious locations which are easily verifiable by such players may not call for a paintcheck. Calling for a paintcheck under such circumstances can constitute continuing to play on.
- 25.5 Players who are in motion while hit in obvious locations which are very easily verifiable for themselves will immediately turn their motion away from the opposition, and stop otherwise they are playing on.

---

<sup>24</sup> No matter what the reason is for being late (e.g. disqualification). In the event that both teams fail to show for a game or both teams are unwilling to take the field, both teams will have forfeited that game. If there is already a known no-show on the schedule, the participating team will get their points automatically.

## **26. UN-OBJIOUS HITS**

- 26.1 Unobvious hits are those which impact and break on players or equipment in areas which are not easily observable by him/her and the player receiving this hit gives no indication of knowledge of it having occurred.
- 26.2 Players with un-obvious hits will be eliminated but will not be penalized.
- 26.3 Should a player with an un-obvious hit become aware, through his own actions or through information provided by teammates, that he has been validly marked, such hit at such time shall then be deemed to constitute and shall constitute an obvious hit.
- 26.4 Players with hits in areas which are not easily verifiable for themselves, such as the back, may continue to play, but must immediately call on a judge who can easily verify whether or not the paintball broke to indicate whether or not such player was eliminated. The judge must respond immediately, and if the hit player was eliminated, he must cease play, signal his elimination and exit the field. Failure to call on such judge for verification constitutes playing on by the hit player. If no such judge is available for verification, such player may continue to play, but must continuously call for a paintcheck by a judge. Failure to call for such a paintcheck will constitute playing on by such player.

## **27. DEFINITIONS**

- 27.1 A player is eliminated (inactive) if a paintball shot by an active player strikes that player or anything he is wearing or carrying and such paintball breaks upon the object struck and leaves a mark no matter of what size it is. If the paintball strikes the player or anything he is wearing or carrying but does not break and does not leave a mark, such player is still active.  
If a paintball strikes another object first and breaks upon that object before marking a player or anything he is wearing or carrying, such player is not eliminated.<sup>25</sup>  
If a judge does not see the impact, but that player has paint on himself or anything he is wearing or carrying that resembles a hit<sup>26</sup>, such player will be eliminated by the judge.  
If two opposing players are hit and marked **simultaneously**, or if the judges cannot determine which player was hit and marked first, both players will be eliminated.
- 27.2 Players will be eliminated if any part of their bodies or anything that they are wearing or carrying touches the ground outside the defined game area. Tape or boundary itself belongs to each playing field.
- 27.3 Players will be eliminated if they are not wearing armbands issued prior to the start of the games, fully exposed on their left arms unless the armband fell off by accident.
- 27.4 Players that are found with tools or other prohibited equipment on the field or those working on their markers during the course of a game, with the exception of cleaning paint out of barrels, loaders or feed ports will be immediately removed from play. Players using electric or electronic markers must ask for permission from a judge before operating buttons during the game. That includes turning the marker off. Players who operate buttons without permission<sup>27</sup> of a judge will be eliminated from play.
- 27.5 Players that separate from any piece of equipment or clothing that they brought onto the game field by more than 5 feet or the length of the bunker they are in, whichever is the furthest, except squeegees, rags or pods used in holding paintballs will be immediately eliminated.
- 27.6 Players that engage in unsportsmanlike conduct, including, but not limited to, failure to obey a judge's directions with respect to moving on a neutral player, deliberate avoidance of a judge in a manner to prevent a judge from chronographing a marker on the field or prevent him from making a call, shooting at judges, excessive shooting at an

<sup>25</sup> spray

<sup>26</sup> Generally, if the paint marking is reasonably solid and at least the size of a quarter, it will be considered a valid hit.

<sup>27</sup> Of course with exception of external non markerbased game-timer buttons.

- eliminated player after being warned by a judge to cease such activity, the requesting of paintchecks to distract judges from checking themselves or teammates or to use judges to locate opposition players or verbal abuse of opposition players, spectators or judges will be eliminated.
- 27.7 Players that take action while there are alive members of the opposing team on the field which would cause them to reasonably believe that such players have been eliminated, including but not limited to calling himself "out" or "hit", hiding the armbands, holding their hand or the markers in positions above the shoulders, putting on barrel blocking devices and carrying them in view of members of the opposing teams or walking in groups of eliminated players will be eliminated.
  - 27.8 Players may be disqualified as a penalty called by a judge for infractions committed by teammates pursuant the provisions contained herein.
  - 27.9 Eliminated players will surrender their armbands to the closest judge and exit the field immediately or at a judge's direction. Eliminated players are not allowed to talk.<sup>28</sup>

## **28. FLAGS, CARRIERS and HANGS**

- 28.1 Once a flag is hung in its flag station prior to the start of games, it is not to be touched by its team.
- 28.2 A flag pull occurs when an active player physically grabs his opponents' flag.
- 28.3 Players carrying flags must carry them in full view. Players cannot attempt to hide or disguise the flag in any way.
- 28.4 Flags may be passed from active to active players.
- 28.5 If a player is eliminated while in possession of a flag, the flag judge will radio his counterpart at the opposition flag station to rehang the spare flag.
- 28.6 When a player carrying the opponents flag breaks the plane of his flag stations boundary, the flag judge will signal "time", the time of the call is recorded and all active players are automatically declared as neutral. The flag carrier will be checked for his status.<sup>29</sup>
- 28.7 If the flag carrier breaking the plane of a flag station is found to be inactive<sup>30</sup>, the flag judge will radio his counterpart at the opposition flag station to immediately rehang the spare-flag and the game goes on with the remaining time running.
- 28.8 If the flag carrier breaking the plane of his flag station with his opponents flag is found active, then the hang will be successful and the game will be declared "game over" as of the time the flag carrier broke the plane.

The time that the flag carrier breaks the plane of the flag station with the flag will be recorded by the flag field judge, and should that player be determined to be alive after being checked by a judge, the hang will be announced and the game will have ended as of the time that such player broke the plane of the flag station.
